MICRONEEDLING

On the first day you will be carrying out microneedling on each other so you must all participate and engage in this activity of treatment to allow Ampika's Aesthetics to qualify and pass you on this area which is crucial to gain insurance.

You are required to turn up make up free so the training academy are ready to go through your consultation and carry out your treatment.

We appreciate this is not always possible. Removing makeup can take up valuable time within your appointment. The other alternative is if you have specific makeup removers you wish to use you are welcome to bring them to remove your makeup before treatments commence.

DRESS CODE

Recommended Dress Code

- The chosen uniform should be clean and well pressed and made of cotton or a polycotton, which may potentially be boil washed. It should be comfortable and allow a full range of movement and be worn whenever they are carrying out treatments/procedures
- They should change into their uniform when they arrive at the centre/clinic, to avoid any contamination of their clothing during their journey to your centre/clinic
- Lower arms should be bare, to avoid any cross-contamination
- A new disposable apron should be used for each client/patient
- Face masks and gloves should be worn by the practitioner for Level 4, 5 and 7 procedures (as outlined in unit **AP5701**, Use of universal infection control precautions, clean and disinfected environment, effective handwashing . use of PPE (gloves, masks, visors, eyewear, apron), sharps safety, sterilised tools and equipment and skin preparation to reduce risk of infection.)
- Minimal jewellery should be worn – plain wedding band and stud piercings only
- Hair should be clean and securely tied back off the face and collar, hairnets may be worn
- Nail extensions should not be worn, we are aware gloves are worn for most aesthetics procedures; however, length is an issue and may affect the application of the procedure
- Nails should be short, clean, and free from varnish, long nails harbour more dirt and bacteria than short nails and could contribute to the spread of infections
- Shoes should be clean, low heeled, closed in and comfortable. Ideally, they should only be worn in the clinic/centre

BEHAVIOUR

Recommended Behaviour

- All bags, outerwear, phones, and personal belongings should be stored in provided lockers/storage areas, unless otherwise arranged with the tutor
- Water is the only drink permitted in sessions
- No other food or drinks are permitted

N.B. We can at times permit a learner to use their phone in the session to take before and after pictures, learners must always maintain a sterile field. Phones should be cleaned when they are brought into the session, gloves are applied after the before pictures and removed before the after pictures.
